## INTERNATIONAL PRELIMINARY REPORT ON PATERTABILITY PCT

(Chapter II of the Patent Cooperation Treaty)

(PCT Article 36 and Rule 70)

Applicant International application No. International aling date (daylmorth/year)											
PCTKEP2005000987		FOR FURTHER A	CTION See	Form PCT/IPEA/416							
Inv. Co7C32300											
1. This report is the international preliminary examination report, established by this International Preliminary Examining Authority under Article 36 and transmitted to the applicant according to Article 36. 2. This REPORT consists of a total of 5 sheets, including this cover sheet. 3. This report is also accompanied by ANNEXES, comprising: a. Sent to the applicant and to the International Bureau) a total of 1 sheets, as follows:  Sent to the applicant and to the International Bureau) a total of 1 sheets, as follows:  sent to the applicant and to the International Bureau) a total of 1 sheets, as follows:  sent to the applicant and to the International Bureau) a total of 1 sheets, as follows:  sheets which supersede earlier sheets, but which this Authority considers contain an amendment that goes beyond the disolosure in the International application as filed, as indicated in Item 4 of Box No. 1 and the Supplemental Box.  b. (sent to the International Bureau only) a total of (Indicate type and number of electronic carrier(s)) , containing a sequence listing and/or tables related thereto, in electronic form only, as indicated in the Supplemental Box Relating to Sequence Listing (see Section 802 of the Administrative Instructions).  4. This report contains indications relating to the following items:  Box No. II Basis of the report  Box No. IV Lack of unity of invention  Box No. IV Lack of unity of invention  Box No. VI Lacks of unity of invention  Box No. VI Certain documents cited  Box No. VII Certain defects in the international application  Box No. VII Certain defects in the international application  Date of submission of the demand  Data of completion of this report  26.04.2006  Name and mailing address of the International preliminary examining authority:  English, R  English, R											
Authority under Article 35 and transmitted to the applicant according to Article 36.  2. This REPORT consists of a total of 5 sheets, including this cover sheet.  3. This report is also accompanied by ANNEXES, comprising:  a. Sent to the applicant and to the International Bureau) a total of 1 sheets, as follows:  Sheets of the description, claims and/or drawings which have been amended and are the basis of this report and/or sheets containing rectifications authorized by this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions).  I sheets which supersede earlier sheets, but which this Authority considers contain an amendment that goes beyond the disclosure in the international application as filed, as indicated in Item 4 of Box No. I and the Supplemental Box.  b. (sent to the International Bureau only) a total of (indicate type and number of electronic carrier(s)) , containing a sequence listing and/or tables related thereto, in electronic form only, as indicated in the Supplemental Box Relating to Sequence Listing (see Section 802 of the Administrative Instructions).  4. This report contains indications relating to the following items:  Box No. I Basis of the report  Box No. II Priority  Box No. IV Lack of unity of invention  Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step and industrial applicability applicability; citations and explanations supporting such statement  Box No. VI Certain documents cited  Box No. VII Certain defects in the international application  Date of submission of the demand  Date of completion of this report  26.04.2006  Name and mailing address of the International preliminary examining authority:  Page 18. 4.317.0340. 2040 N. 37.1 651 epo nl  English, R											
3. This report is also accompanied by ANNEXES, comprising: a. ☑ sent to the applicant and to the International Bureau) a total of 1 sheets, as follows: ☑ sheets of the description, claims and/or drawings which have been amended and are the basis of this report and/or sheets containing rectifications authorized by this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions). ☐ sheets which supersede earlier sheets, but which this Authority considers contain an amendment that goes beyond the disclosure in the international application as filled, as incloated in item 4 of 8cx No. I and the Supplemental Box.  b. ☐ (sent to the International Bureau only) a total of (indicate type and number of electronic carrier(s)) , containing a sequence listing and/or tables related thereto, in electronic form only, as indicated in the Supplemental Box Relating to Sequence Listing (see Section 802 of the Administrative instructions).  4. This report contains indications relating to the following items: ☐ Box No. I Basis of the report ☐ Box No. II Priority ☐ Box No. II Priority ☐ Box No. IV Lack of unity of invention ☐ Box No. IV Lack of unity of invention ☐ Box No. VI Certain documents cited ☐ Box No. VI Certain documents cited ☐ Box No. VII Certain defects in the international application ☐ Box No. VII Certain doservations on the International application ☐ Box No. VII Certain observations on the International application ☐ Box No. VIII Certain observations on the International application ☐ Box No. VIII Certain observations on the International application ☐ Box No. VIII Certain observations on the International application ☐ Box No. VIII Certain observations on the International application ☐ Box No. VIII Certain observations on the International application ☐ Box No. VIII Certain observations on the International application ☐ Box No. VIII Certain observations on the International application ☐ Box No. VIII Certain observations on the International Preliminary examining authority: ☐ Box No. VIII Certain	This report is the ir Authority under Art	This report is the international preliminary examination report, established by this International Preliminary Examining Authority under Article 35 and transmitted to the applicant according to Article 36.

PCT/EP2005/000987

#### Re Item V

Reasoned statement with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

Reference is made to the following document:

D1: WO 01/68597 A (Indena) 20 September 2001

#### 1. Subject-matter

The present application concerns compounds containing two N-deacetylthio-colchicine groups linked together via a cyclic linker group. These compounds have antitumour, antiarthritic, antiinflammatory and antiviral activity.

#### 2. Novelty

Document D1 discloses (see examples) compounds containing two N-deacetylthio-colchicine groups linked together via linkers with the formulae  $CO(CH_2)_{2-10}CO$  and  $CONHCH_2CH_2CO$ . Compounds of present claim 1 are not disclosed in D1 or anywhere else in the prior art. Consequently, the subject-matter of claims 1-6 appears to be new and to satisfy the requirements of Article 33(2) PCT.

#### 3. Inventive step

The document D1 is regarded as being the closest prior art to the subject-matter of claims 1-6, and discloses compounds containing two N-deacetylthiocolchicine groups linked together via linkers which are not part of the scope of the present invention or are excluded from it and their use in the treatment of tumours and rheumatoid arthritis. These prior-art compounds differ from those of the present application in that the latter have a cyclic group as the linker between the two N-deacetylthiocolchicine groups in place of the acyclic alkylene group of the former.

A comparison of the pharmacological data provided by the applicant shows that the compounds of the present invention in which the linker contains a cyclic group (examples 1-4) show an improved activity (lower  $IC_{50}$ ) against certain cancers (MCF7, A2780, Widr) compared to one compound of D1 in which the linker is acyclic. The problem to be solved by the present invention may therefore be regarded as the provision of improved compounds for antitumour, antiarthritic, antiinflammatory and antiviral use. The applicant solves this problem by means of the compounds of present claim 1 as demonstrated in the description (table 2).

#### INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY (SEPARATE SHEET)

International application No.

PCT/EP2005/000987

It would not be obvious to the person skilled in the art that replacement of the linker groups of D1 with those of the present application would lead to improved compounds for antitumour, antiarthritic, antiinflammatory and antiviral use. Consequently, the subject-matter of the present claims appears to involve an inventive step and to satisfy the requirements of Article 33(3) PCT.

13

#### **CLAIMS**

#### 1. Compounds of formula I

in which:

5

- the linker is C<sub>3</sub>-C<sub>8</sub> cycloalkyl, a phenylene or C<sub>4</sub>-C<sub>6</sub> heterocyclic ring; and
- the G junctions are both -CO- or -CONH.
- 2. Compounds as claimed in claim 1 in which the *linker* is selected from 1,3-ciclohexylene and 1,4-cyclohexylene.
  - 3. Compounds as claimed in claim 1 or 2 in which the *linker* is selected from 1,2-, 1,3- or 1,4-phenylene.
- 4. Compounds as claimed in claim 1 in which the *linker* is selected from pyridyl, piperidinyl, piperazinyl linked to the G<sub>1</sub> and G<sub>2</sub> groups in the positions 3,5 or 2,5 or 2,6.
  - 5. The compounds of formula I for antitumour, antiarthritis, antiinflammatory and antiviral use.
- 6. Pharmaceutical compositions containing the compounds of formula I as active ingredients in admixture with suitable carriers and/or excipients.
